

PORTABLE APPLIANCE TESTING

to
THE IEE CODE OF PRACTICE

CITY & GUILDS 2377 (Level 3)
£210 vat inc.

This short course is designed around the *IEE Code of Practice for In-Service Inspection and Testing of Electrical Equipment (3rd Edition)*. The course covers the legislative and procedural requirements associated with equipment maintenance and with the technical approach to the testing itself.

The program is of 8 hours duration, in which time the candidate will study all aspects of the Code of Practice and undertake a short practical module. The final City & Guilds assessment is in the form of a multiple choice on-line examination, comprising 30 questions (1hr).

Depending on demand, the course can be delivered to suit individual or company requirements, but is usually conducted over one day, with the on-line assessment on the following day.

Candidates will require their own copy of the Code of Practice for use during the course and the assessment. This is available from any major bookstore or direct from our web site.
